### Security, Safety, Awareness:

The locations that you are visiting on this trip are classed as generally safe however there is an increase in petty crime throughout Europe's tourist destinations. This should not be ignored, and you must always exert caution, especially if wearing expensive watches or jewelry. Pickpockets sometimes dress like businessmen/women; you should not be lulled into a false sense of security by believing that well-dressed individuals are not potential pickpockets or thieves. Be careful with your bag or purse, as thieves on motor scooters are very quick and can snatch a purse off your arm from a moving scooter. Resisting these thieves can be hazardous, as some tourists have suffered broken arms and collarbones.

"Rome is simply marvellous. A kind of jungle - humid and beautiful. Loud at times, peaceful at others. It's a place where you can hide behind the foliage." - La Dolce Vita

The image captures the interior of the dome of St. Peter's Basilica in the Vatican. The central feature is the dome's interior surface, which is covered in a vast fresco depicting the Last Judgment. At the top, Christ is shown seated on a throne, surrounded by angels and saints. Below him, the scene unfolds with figures rising from the dead and being judged. The dome is supported by a series of arches and columns, each adorned with intricate carvings and smaller frescoes. A central window is visible in the upper part of the dome, and a large, arched window is at the bottom. The overall atmosphere is one of grandeur and historical significance.
